

## **My Pet**

*Written by **Grace Mak (2C 17)***

This dog has two fluffy ears, a small nose and a short little tail. This is the best pet for me. It is a dog. It is brown. Its fur is soft and warm. It has two fluffy ears, a small nose and a short little tail. It is friendly because it always likes to play with people. It is also noisy because it always barks. It can wag its tail and dig big holes too.

I want my pet to be healthy and happy, so I need to be a responsible pet owner. When my dog is hungry, I need to give it good dog food and fresh water. I need to give it a warm, comfy bed to rest. I need to take it for a walk every day too. I need to let it run around my home sometimes. I need to play with it so it doesn't get bored. I need to give it lots of love and attention. I always need to brush its fur. However, it might chew my books and worksheets and it also might pee or poop on the floor. It also barks loudly all the time and might disturb the neighbours.

After careful consideration, I think I can keep a dog as my pet. I can give it everything it needs, such as good dog food, fresh water, a warm, comfy bed and a safe place to live. Also, I can often spend time with it, like playing with it and taking it for a walk. I am sure it is going to be happy and healthy all the time. All my family members will love it. Now, we can plan when to get it. Hurray! I promise I will never be cruel to it or abandon it. I will take good care of it.
