

Sister's Day

Written by Joanna Ng (3L 20)

We celebrate Sister's Day on the 18th of October every year. People who have sisters celebrate it in the park. It is a peaceful, spacious, and wonderful place to play, chat, and spend time together. During this festival, we can enjoy three activities: hanging out with our sisters, playing a game to see who can draw their sister better, and visiting sisters who do not live with us.

This festival is special. First, we can eat heart-shaped and flower-shaped cookies. Second, we decorate the park with flowers and pink banners that read "Sister's Day". Finally, we wear matching outfits with our sisters.

We celebrate it to honour sibling bonds. We need to appreciate our siblings' love and strengthen the relationships we share with our sisters. We all feel over the moon during this festival!
