

Superboy Saves the Day

Written by Bianca Yip (6C 23)

Last summer, I went to the park with Ben. Suddenly, I saw a robbery happening there. I felt very surprised and scared.

While we were walking in the park, we heard a strange sound and someone screaming loudly. We were curious, so we walked over to see what had happened. Ben and I saw a robber pointing a knife at a lady, Mrs. Chan. The robber was wearing a T-shirt and jeans. He also had a scar on his right hand. He wore a mask and a hat. He looked old-fashioned.

The robber whispered, "Hands up! This is a robbery! Hand over your jewellery and your purse immediately!"

Mrs. Chan was very frightened. She got the fright of her life when the robber pointed the knife at her. She was wearing an elegant dress and a pearl necklace. She had many pieces of jewellery. She had short, curly hair. I felt shocked, but I tried to help the lady. I helped her call the police immediately.

After I called the police, Ben suddenly turned into Superboy. He became taller and looked much stronger. He had a strong, muscular body. Ben was wearing a superhero costume with gloves. I was very surprised. He quickly ran to the robber and shouted, "Let go of her! Give the jewellery and purse back to Mrs. Chan now!"

The robber tried to escape, but Ben chased him and caught him quickly. The robber looked nervous and frightened. Ben was very brave. A few minutes later, the police arrived. I told them what had happened.

At last, the police arrested the robber. The police were surprised that Ben could turn into a superboy. Mrs. Chan got back all her jewellery and her purse. She thanked us again and again. She was very grateful.

I felt proud of Ben and surprised that he had superpowers. He told me that he had been a superboy since he was young. When he saw someone in danger, he would help and save them. I learned that we need to be brave and calm when something bad happens, and we should call the police for help immediately.
